1. It is undesirable to allow the growth of any private buildings between Primary as channel & the road to the East of it. The land here is required to be reserved for public purposes including Railway & Sidings requirements.

11. If the object is to relieve overcrowding or to make available additional building sites in this area of the City, ~~steps should be taken to~~ this is best accomplished by acquiring & allotting a larger piece of land as a Northern extension such an extension will be commanded by the new water supply, will relieve the congestion of people in what is now a very unsavoury locality, will simplify drainage arrangements & be useful in many ways.

Mysore City Municipal
President's office dated the
25th September 1896.

To,

The Secretary to the
Government of Mysore
Revenue and General departments.

Sir,

When the canal called Gurmyah-
nala was dug in the town of Mysore,
the earth excavated was heaped on a
site hard by. As the canal was lately
filled up for the improvement of the
town the excavation was utilized and
the ground on which it had been heaped
levelled. It was originally intended to
build Police lines on it, but the Ins-
pector General of Police now says
that it is not required for the Police
department. It is behind the mochee-
ghaut Police station in the Mundy-
mohalla of the city of Mysore. The

Enclosed sketch shews its position.
The residents of the above mohalla
want permission to build houses
thereon. It is very necessary to pro-
vide them with building sites. There
is no other ground available except
the one in question. Therefore I beg
that the sanction of Government
may be obtained to divide it into
building sites and sell them in
public auction.

I have the honor to be

Sir,

Your most obedient servant.
